Name: Sample Student**Date:** 16/08/2013**Listening Paper****Score:** 5.0-5.5

You got most of the multiple choice answers right. You need to improve your completion questions e.g. "The lecture **takes** place at 9.30a.m" NOT "**take** place". Listen for the 's' at the end of words and check if the subject is singular or plural. Be careful with your spelling. e.g. "**prices**" not "**pricys**" / "**beautiful**" not "**beutiful**". If you spell a word incorrectly, you will not get a mark.

To improve your listening score...

- ➔ Check your spelling when you write your answers on the answer sheet.
- ➔ Study parts of speech and subject/verb agreement to understand what completes the sentences.

Reading Paper**Score:** 6.0-6.5

Your reading paper was quite strong. You have a specific question type that you need to improve. This is heading matching (Questions 7-15). You only got two of these questions right. Your spelling was better here as you generally used words from the text, which is correct. For two answers ("**sugar**" and "**concert**") the words were not in the text. Do not use your own words for completion questions.

To improve your reading score ...

- ➔ Only use words that are in the texts (unless you have a box of options).
- ➔ Study paragraph construction (main and supporting points).

Writing Paper**Score:** 5.5-6.0

Your task 2 answer was much stronger than your task 1 answer. You have a good essay structure and you answered the question well. Your grammar and vocabulary was generally good (see how to improve for main errors). On task 1, you need to understand the tense of the visual information and use the correct tense in your answer (you answered in present tense, which was not correct). Look for any dates on the visual information to work out the tense.

To improve your writing score...

- ➔ Make sure your tenses match the data in task 1.
- ➔ Revise modal verb structures (should/must/have to etc) and phrases with hope and wish

Speaking Paper:

Score: 6.5-7.0

Your speaking test was generally strong. You answered fully in part 1 and gave long answers with explanation and a variety of language e.g. "I'm not accustomed to eating so early." Also, your part 3 was very good and you gave explanations and engaged the examiner. Your pronunciation was clear and you spoke quite fluently. You did not answer all parts in task 2- only 2 parts. This will affect your score.

To improve your speaking score...

- ➔ Make sure you cover all parts of the prompt in part 2 within the time.
- ➔ Continue giving full answers in part 3. Try to vary your language even more.

From the above scores, we estimate your band range to be 5.5-6.5

Suggestions for improvement:

1. Practise your writing task 1 because it is one of your weaker areas from this test. You need to be able to understand the time the information is set in (if applicable). Look at sample task 1 practice online and work out the tense, then write an answer with these tenses and check with any sample answers.
2. If you are asked to write full words for some answers in the reading section, make sure they are words from the text. Also, the listening will always ask for words that you hear. Do not write your own words on the reading and listening sections.
3. Check your listening and reading papers for spelling or grammar errors. In your writing, you use subject/verb agreement well, so you can reduce mistakes in the listening/reading e.g. "The lecture **take** place" with checking.

Please note: Scores are estimations based on marker experience. The test and feedback is intended solely to help you improve your language level and test-taking skills.
